1. Reporting entity

Nature of operations

MedMira Inc. (MedMira or the Company) is a biotechnology company headquartered in Canada. The address of the Company's registered office is 155 Chain Lake Drive, Suite 1, Halifax, Nova Scotia, B3S 1B3. MedMira Holding AG owns the majority of MedMira's shares and is the controlling shareholder. MedMira, through its subsidiaries, is engaged in the business of research, development and manufacturing of rapid diagnostics and technologies. The Company invests in research in order to maintain and expand its position in the global diagnostics market. MedMira's research is focused on specific areas of the broader diagnostics market, namely the rapid, point-of-care, and *in vitro* sectors.

2. Significant accounting policies

a. Basis of presentation

The condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting, using the same basis of measurement and presentation and the same accounting policies as described in notes 2 and 3 to the Company's audited consolidated financial statements as at and for the year ended July 31, 2016, except as noted below. The condensed interim consolidated financial statements should be read in conjunction with those audited consolidated financial statements.

The condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries which are shown below.

	Country of incorporation	Ownership interest	
		October 31, 2016	July 31, 2016
MedMira Inc.	Canada	100	100
MedMira Laboratories Inc.	Canada	100	100
Maple Biosciences Inc.	Canada	100	100
MedMira International AG	Switzerland	100	100
MedMira (US) Inc.	United States of America	100	100

The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. All financial information is presented in Canadian dollars unless explicitly stated.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on December 30, 2016.

b. Going-concern

The condensed interim consolidated financial statements have been prepared on a going-concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations. However, certain adverse conditions and events cast significant doubt upon the validity of this assumption.

MedMira Inc.

Notes to the unaudited condensed interim consolidated financial statements

For the three months ended October 31, 2016 and October 31, 2015

In Canadian dollars

The Company has incurred losses and negative cash flows from operations on a cumulative basis since inception. For the three months ended October 31, 2016, the Company realized a net loss of approximately \$0.8 million (October 31, 2015 – net loss of \$0.9 million), consisting of a net loss from operations of \$0.7 million (October 31, 2015 – net loss \$0.7 million), and other non-operating expenses of \$0.1 million (October 31, 2014 – loss of \$0.2 million). Negative cash flows from operations were approximately \$0.7 million (October 31, 2015 – \$1.5 million). As at October 31, 2016, the Company had an accumulated deficit of approximately \$84.3 million (July 31, 2015 – 83.5 million). In addition to its on-going working capital requirements, the Company must secure sufficient funding for its research and development programs for existing commitments, including its current portion of loans of approximately \$6.3 million. These circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going-concern.

Management is pursuing other financing alternatives to fund the Company's operations so it can continue as a going-concern. Management plans to secure the necessary financing through new equity and debt arrangements. Nevertheless, there is no assurance that this initiative will be successful.

The Company is subject to risks associated with early stage companies, including but not limited to, dependence on key individuals, competition from substitute services and larger companies, and the requirement for the continued successful development and marketing of its products and services. The Company's ability to continue as a going-concern is dependent upon its ability to generate positive cash flow from operations and secure additional financing. These financial statements do not reflect the adjustments to carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going-concern assumption not appropriate. These adjustments could be material.

c. Future changes in accounting policies

The following new standards and amendments have been issued but are not effective for the three months ended October 31, 2016, and, accordingly, have not been applied in preparing these consolidated financial statements.

IFRS 9 - Financial Instruments - A finalized version of IFRS 9 which contains accounting requirements for financial instruments, replacing IAS 39 Financial Instruments: Recognition and Measurement has been issued and is effective for annual periods beginning on or after January 1, 2018. The standard contains requirements in the following areas: classification and measurement, impairment, hedge accounting and derecognition. This new standard supersedes all prior versions of IFRS 9.

IFRS 15 - Revenue from Contracts with Customers. This standard is effective from fiscal years beginning on or after January 1, 2018 and provides a single, principles based five-step model to be applied to all contracts with customers. Guidance is provided on topics such as the point in which revenue is recognized, accounting for variable consideration, costs of fulfilling and obtaining a contract and various related matters. New disclosures about revenue are also introduced.

IFRS 16 – Leases. This standard provides a single lease accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17 with the distinction between operating leases and financial leases being retained. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Early adoption is permitted if IFRS 15 has also been applied.

IFRS 2 – Share –based payments. The amendment clarifies how to account for the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments, share-based payment transactions with a net settlement feature and a modification to the terms and conditions that changes the classification of the transactions. The amendment is effective for annual periods beginning on or after January 1, 2018

The Company is currently evaluating the potential impact, if any, of these standards and amendments.

8. Financial instruments

a. Foreign currency risk

Most of the Company's sales are made in foreign currencies. The Company's U.S. dollar foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are shown in the table below.

	31-Oct-15 US\$	31-Jul-16 US\$
Cash and cash equivalents	3,992	24,148
Trade and other receivables	75,440	128,424
Prepaid expense	6,190	5,949
Accounts payable and accrued liabilities	900,137	943,411

A one cent change in the U.S. dollar exchange rate would result in approximately a \$9,858 (July 31, 2016 – \$11,020) impact on the balance sheet and consolidated statement of income.

b. Liquidity risk

Liquidity risk represents the possibility that the Company may not be able to gather sufficient cash resources, when required and under reasonable conditions, to meet its financial obligations. As at October 31, 2016, the Company does not have sufficient cash to meet all of its continual liabilities.

The Company also continues to have an ongoing need for substantial capital resources to research and develop, commercialize and manufacture its products and technologies. The Company is not yet generating a sufficient ongoing revenue stream, nor can it be certain that it will receive significant revenue before additional cash is required. As a result, there can be no guarantee that the Company will have sufficient capital to fund its ongoing operations, develop or commercialize its products without future financing.

The Company's contractual maturities for its financial liabilities are outlined in the table below.

9. Royalty provision

During March 2015, the Company entered into a royalty agreement with MedMira Holding AG whereby MedMira Holding AG would receive a 10% royalty on all future US sales of the Reveal G4 product for a five year period commencing on the day of the first full payment of at least CAD \$100,000 worth of product. In exchange, MedMira Holding AG provided the Company with \$270,000 to fund costs required to complete product development and obtain US Food and Drug Administration (FDA) pre-market approval. At the inception of the arrangement, the Company's best estimate of the fair value of the provision was zero and as MedMira Holding AG is the controlling shareholder of the Company, the \$270,000 was recorded in equity. As at October 31, 2016, the Company's best estimate of the fair value of the provision was \$34,889 (2016 - \$31,991), which is recorded in accounts payable and accrued liabilities as it is currently payable and the change in fair value of the provision recorded in finance cost.

During July 2016, the Company entered into a royalty agreement with MedMira Holding AG whereby MedMira Holding AG would receive a 10% royalty on all future sales of HCV portion of the approved Multiplo HIV/HCV commencing on the day of the first full delivery and payment of CAD \$10,000 worth of product. In exchange, MedMira Holding AG provided the Company with \$200,000 to fund costs required to complete product development and obtain FDA pre-market approval. At the inception of the arrangement, the Company's best estimate of the fair value of the provision was zero and as MedMira Holding AG is the controlling shareholder of the Company, the \$200,000 was recorded in equity. As at October 31, 2016, the Company's best estimate of the fair value of the provision was zero.

During October 2016, the Company entered into a royalty agreement with Ritec AG whereby Ritec AG would receive a 12.5% royalty on all future sales of the approved Reveal G4 CLIA product commencing on the day of the first full delivery and payment of CAD \$10,000 worth of product. In exchange, Ritec AG will provide the company with CHF 1,000,000 to fund costs required to complete the product development, clinical trials and obtain FDA approval. During the first quarter of 2017, the Company had received CHF 600,000 (CAD \$789,300) towards this royalty agreement. At the inception of the arrangement, the Company's best estimate of the fair value of the provision was zero and as Ritec AG is owned by a shareholder of MedMira Holding AG who is the controlling shareholder of the Company, the \$789,300 was recorded in equity. At at October 31, 2016, the Company's best estimate of the fair value of the provision was zero.

11. Research and development

The Company receives government grants to offset the cost of developing certain products. These grants are recognized as a credit against the research expense in the period the expense is incurred. There are no unfulfilled conditions regarding the grants.

In addition to grants, the Company receives revenue related to a contract with the US military. Research expenses related to the US military contract are recognized in service cost of sales when the revenue is earned. During the three months ended October 31, 2016, nil research costs incurred were recognized in service cost of sales (October 31, 2015 – \$952,234).

The following table provides a summary of aggregate research costs and reimbursements.
