Management's responsibility for financial reporting

The accompanying consolidated financial statements of MedMira Inc. (MedMira or the Company) are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards (IFRS). The consolidated financial statements includes amounts and assumptions based on management's best estimates which have been derived with careful judgement.

In fulfilling its responsibilities, management has developed and maintains a system of internal accounting controls. These controls are designed to ensure that the financial records are reliable for preparation of the consolidated financial statements.

The Board of Directors of the Company is responsible for ensuring that management fulfils its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the condensed interim consolidated financial statements and the accompanying management's discussion and analysis. The Board of Directors carries out this responsibility principally through its Audit Committee.

The Audit Committee is a subcommittee of the Board of Directors. It is responsible for oversight of the internal control and financial matters assisting the Company's management and independent auditors to ensure that the integrity of the financial reporting process is maintained.

MedMira Inc.

Notes to the unaudited condensed interim consolidated financial statements

For the three months ended October 31, 2015 and October 31, 2014

In Canadian dollars

1. Reporting entity

Nature of operations

MedMira Inc. (MedMira or the Company) is a biotechnology company headquartered in Canada. The address of the Company's registered office is 155 Chain Lake Drive, Suite 1, Halifax, Nova Scotia, B3S 1B3. OnSite Lab Holdings AG (OnSite) owns the majority of MedMira's shares and is the controlling shareholder. MedMira, through its subsidiaries, is engaged in the business of research, development and manufacturing of rapid diagnostics and technologies. The Company invests in research in order to maintain and expand its position in the global diagnostics market. MedMira's research is focused on specific areas of the broader diagnostics market, namely the rapid, point-of-care, and *in vitro* sectors.

2. Significant accounting policies

a. Basis of presentation

The condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting, using the same basis of measurement and presentation and the same accounting policies as described in notes 2 and 3 to the Company's audited consolidated financial statements as at and for the year ended July 31, 2015, except as noted below. The condensed interim consolidated financial statements should be read in conjunction with those audited consolidated financial statements.

The condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries which are shown below.

	Country of incorporation	Ownership interest	
		October 31, 2015	July 31, 2015
		%	%
MedMira Inc.	Canada	100	100
MedMira Laboratories Inc.	Canada	100	100
Maple Biosciences Inc.	Canada	100	100
MedMira International AG	Switzerland	100	100
MedMira (US) Inc.	United States of America	100	100

The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. All financial information is presented in Canadian dollars unless explicitly stated.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on December 11, 2015.

b. Going-concern

The condensed interim consolidated financial statements have been prepared on a going-concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations. However, certain adverse conditions and events cast significant doubt upon the validity of this assumption.

The Company has incurred losses and negative cash flows from operations on a cumulative basis since inception. For the three months ended October 31, 2015, the Company realized a net loss of approximately \$0.9 million (October 31, 2014 – net loss of \$1.0 million), consisting of a net loss from operations of \$0.7 million (October 31, 2014 – net loss \$0.7 million), and other non-operating expenses of \$0.2 million (October 31, 2014 – loss of \$0.3 million). Negative cash flows from operations were approximately \$1.5 million (October 31, 2014 – \$0.7 million). As at October 31, 2015, the Company had an accumulated deficit of approximately \$78.9 million (July 31, 2015 – \$78.0 million). In addition to its on-going working capital requirements, the Company must secure sufficient funding for its research and development programs for existing commitments, including its current portion of loans of approximately \$2.3 million. These circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going-concern.

Management is pursuing other financing alternatives to fund the Company's operations so it can continue as a going-concern. Management plans to secure the necessary financing through new equity and debt arrangements. Nevertheless, there is no assurance that this initiative will be successful.

The Company is subject to risks associated with early stage companies, including but not limited to, dependence on key individuals, competition from substitute services and larger companies, and the requirement for the continued successful development and marketing of its products and services. The Company's ability to continue as a going-concern is dependent upon its ability to generate positive cash flow from operations and secure additional financing. These financial statements do not reflect the adjustments to carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going-concern assumption not appropriate. These adjustments could be material.

c. Future changes in accounting policies

The following standards and amendments to standards are effective for annual periods beginning on or after January 1, 2015 or later, with earlier adoption permitted.

Disclosure Initiative (Amendments to IAS 1) - On December 18, 2014, the IASB issued *Disclosure Initiative (Amendments to IAS 1)* as part of its major initiative to improve presentation and disclosure in financial reports. The amendments to IAS 1 relate to (i) materiality; (ii) order of the notes; (iii) subtotals; (iv) accounting policies; and (v) disaggregation and are designed to further encourage companies to apply professional judgment in determining what information to disclose in their financial statements. For example, the amendments make clear that materiality applies to the whole of financial statements and that the inclusion of immaterial information can inhibit the usefulness of financial disclosures. Furthermore, the amendments clarify that companies should use professional judgment in determining where and in what order information is presented in the financial disclosures. The standard is effective for annual periods beginning on or after January 1, 2016. Earlier adoption is permitted.

IFRS 9 - Financial Instruments - A finalized version of IFRS 9 which contains accounting requirements for financial instruments, replacing IAS 39 Financial Instruments: Recognition and Measurement has been issued and is effective for annual periods beginning on or after January 1, 2018. The standard contains requirements in the following areas: classification and measurement, impairment, hedge accounting and derecognition. This new standard supersedes all prior versions of IFRS 9.

IFRS 11 - Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations (Amendments to IFRS 11). The standard is effective on or after January 1, 2016 and has been amended to require an acquirer of an interest in a

joint operation in which the activity constitutes a business (as defined in *IFRS 3 Business Combinations*) to: apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11 and disclose the information required by IFRS 3 and other IFRSs for business combinations. The amendments apply both to the initial acquisition of an interest in joint operation, and the acquisition of an additional interest in a joint operation (in the latter case, previously held interests are not re-measured).

IFRS 15 - Revenue from Contracts with Customers. This standard is effective from fiscal years beginning on or after January 1, 2018 and provides a single, principles based five-step model to be applied to all contracts with customers. Guidance is provided on topics such as the point in which revenue is recognized, accounting for variable consideration, costs of fulfilling and obtaining a contract and various related matters. New disclosures about revenue are also introduced. This standard has been tentatively deferred until January 1, 2018.

IAS 16 - Property, Plant and Equipment - Clarification of Acceptable Methods of Depreciation and Amortization (Amendments to IAS 16). The amendments are effective for annual periods beginning January 1, 2016 and clarify that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment.

The Company is currently evaluating the potential impact, if any, of these standards.

d. Stock based compensation

The Company has established a stock option plan for its employees, officers, and directors. All options vest immediately upon issue and the Company is authorized to issue a maximum of 13,000,000 options annually upon approval by shareholders. Options that have been issued and remain outstanding are exercisable into an equivalent of 2,921,875 common shares (July 31, 2015 – 2,921,875) at an exercise price of \$0.10. The options expire between March 2, 2016 and April 12, 2018. All options outstanding at October 31, 2015 were exercisable.

The Company has two short term loans with related parties and one short term loan with a non-related party. The loans are utilised by the Company for short term working capital requirements, and are payable on demand with an interest rate of 3%-5%. The loans were not in default at October 31, 2015.

Trade invoice financing facility

During 2015, the Company entered into a trade invoice financing facility whereby the Company may offer insured accounts receivable having payment terms not longer than 60 days in an aggregate amount not greater than USD \$1,000,000 to the bank for purchase at a discount. As the Company has not transferred the significant risks and rewards relating to the receivables, it has not derecognized the accounts receivable and has recorded the facility in short term loans. As at October 31, 2015, there is no balance outstanding on the facility (July 31, 2015 - \$287,543).

Loan 1

Loan established October 31, 2012, bearing 5% interest with monthly interest only payments until November 30, 2013, followed by equal monthly principal payments and accrued interest for five additional years ending November 30, 2018. The loan is secured by interest on intellectual property and on the step-up technology. The loan was in default as of October 31, 2015 and thus has been classified as a current liability.

Loan 2

Loan established July 31, 2012, bearing 5% interest with monthly interest only payments until July 31, 2013, followed by equal monthly principal payments for five additional years ending July 31, 2018. During the quarter the loan was renegotiated. Monthly interest payments are due until April 30, 2016, followed by equal monthly principal payments and accrued interest for four additional years ending July 31, 2020. The loan was not in default at October 31, 2015.

A one cent change in the U.S. dollar exchange rate would result in approximately a \$12,917 (July 31, 2015 – \$16,862) impact on the balance sheet and consolidated statement of income.

b. Liquidity risk

Liquidity risk represents the possibility that the Company may not be able to gather sufficient cash resources, when required and under reasonable conditions, to meet its financial obligations. As at October 31, 2015, the Company does not have sufficient cash to meet all of its continual liabilities.

The Company also continues to have an ongoing need for substantial capital resources to research and develop, commercialize and manufacture its products and technologies. The Company is not yet generating a sufficient ongoing revenue stream, nor can it be certain that it will receive significant revenue before additional cash is required. As a result, there can be no guarantee that the Company will have sufficient capital to fund its ongoing operations, develop or commercialize its products without future financing.

The Company's contractual maturities for its financial liabilities are outlined in the table below.

For the period ended October 31, 2015			
	Total	Less than 1 year	1 to 3 years
	\$		\$
Loans	6,457,112	2,305,450	4,151,662

10. Research and development

The Company receives government grants to offset the cost of developing certain products. These grants are recognized as a credit against the research expense in the period the expense is incurred. There are no unfulfilled conditions regarding the grants.

In addition to grants, the Company receives revenue related to a contract with the US military. Research expenses related to the US military contract are recognized in service cost of sales when the revenue is earned. During the three months ended October 31, 2015, \$952,633 of the research costs incurred were recognized in service cost of sales (October 31, 2014 – \$204,234).

The following table provides a summary of aggregate research costs and reimbursements.
