

MedMira Inc.

Management's Discussion & Analysis

For the three months ended October 31, 2019

Forward looking statements

This document contains forward looking statements, such as statements regarding future sales opportunities in various global regions and financing initiatives that are based on current expectations of management. These statements involve uncertainties and risks, including MedMira Inc.'s ("MedMira" or the "Company") ability to obtain and/or access additional financing with acceptable terms, and delays in anticipated product sales. Such forward-looking statements should be given careful consideration and undue reliance should not be placed on these statements.

This MD&A contains statements that may constitute forward-looking statements about the Company's objectives, strategies, financial condition, results of operations, cash flows and businesses. These statements are "forward-looking" because they are based on current expectations, estimates, assumptions, risks and uncertainties. These forward-looking statements are typically identified by future or conditional verbs such as "outlook", "believe", "anticipate", "estimate", "project", "expect", "intend", "plan", and terms and expressions of similar import. Such forward-looking statements are subject to a number of risks and uncertainties that include, but are not limited to: cyclical downturn; competitive pressures; dealing with business and political systems in a variety of jurisdictions; repatriation of funds or property in other jurisdictions; payment of taxes in various jurisdictions; exposure to currency movements; inadequate or failed internal processes, people or systems or from external events; dependence on key customers; safety performance; expansion and acquisition strategy; regulatory and legal risk; corruption, bribery or fraud by employees or agents; extreme weather conditions and the impact of natural or other disasters; shortage of specialized skills and cost of labour increases; equipment and parts availability, reputational risk; cybersecurity risk; market price and dilution of common shares and environmental regulation risk. Actual results could be materially different from expectations if known or unknown risks affect the business, or if estimates or assumptions turn out to be inaccurate. The Company does not guarantee that any forward-looking statement will materialize and, accordingly, the reader is cautioned not to place reliance on these forward-looking statements. The Company disclaims any intention and assumes no obligation to update any forward-looking statement, even if new information becomes available, as a result of future events or for any other reasons, except in accordance with applicable securities laws.

Introduction

The MD&A was issued and approved by the Board of Directors on the 30th day of December 2019. The following MD&A for the three months ended October 31, 2019 has been prepared to help investors understand the financial performance of MedMira in the broader context of the Company's strategic direction, the risk and opportunities as understood by management, and the key metrics that are relevant to the Company's performance. The Audit Committee of the Board of Directors has reviewed this document and all other publicly reported financial information for integrity, usefulness, reliability and consistency.

This document should be read in conjunction with the audited consolidated financial statements for the year ended July 31, 2019. Annual references are to the Company's fiscal years, which end on July 31. All amounts are expressed in Canadian dollars ("CAD") unless otherwise noted.

Additional information about MedMira, this document, and the related quarterly financial statements ended October 31, 2019 can be viewed on the Company's website at www.medmira.com and are available on SEDAR at www.sedar.com.

The preparation of Management's Discussion and Analysis ("MD&A") may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Management bases estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities. Actual results may differ

from these estimates under different assumptions or conditions. Management believes the accounting policies, outlined in the Significant Accounting Policies section of its October 31, 2019 consolidated financial statements, affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

About MedMira

MedMira is a biotechnology company engaged in the development and commercialization of rapid diagnostics and technology platforms. The Company is headquartered in Halifax, Nova Scotia, Canada and is listed on the TSX Venture Exchange ("TSX-V") under the symbol MIR.

The patented MedMira Rapid Vertical Flow (RVF) Technology™ platform is the basis for the Company's line of rapid tests. Diagnostic applications based on this technology are highly accurate, easy-to-use, and produce instant results – a strong advantage over most other rapid diagnostics on the market today. These features are enhanced further with ability to deliver multiplex results on one test device with just one drop of specimen. The Company has created a new generation of rapid tests that are based on the need to provide immediate answers without increasing costs.

MedMira's technology platform and growing portfolio of diagnostic tools demonstrate excellence in performance and quality in the highly competitive diagnostics industry. More than \$30 million has been invested in perfecting MedMira's core technology, which has proven itself time and time again with its excellent clinical performance and its success in rigorous evaluations and inspections, leading to regulatory approvals for rapid diagnostic solutions in the United States (US Food and Drug Administration), Canada (Health Canada), the notified body in the European Union (CE Mark), and China (CFDA) and in a number of countries in Latin America, Africa, and Asia. The Company's quality system is ISO 9001 and ISO 13485 certified.

MedMira sells its rapid tests through a network of medical distributors and strategic business development partners to customers in all sectors of the healthcare industry, including laboratories, hospitals, point-of-care clinics, governments, aid organizations, and public health agencies.

In addition to clinical diagnostics, the Company offers the Miriad™ product line to create new opportunities in the high value technology licensing sector. This business line allows the Company to monetize its award-winning technology and core capabilities, including R&D, product development, and regulatory proficiency. Miriad provides access to MedMira's RVF Technology for researchers, developers, and biotech companies on a license basis to facilitate the creation of new rapid tests or the transition of existing tests to this unique platform. Infiltrating new and different sectors of the diagnostic industry, such as veterinary and environmental, with the Company's technology, enables MedMira to build a higher degree of global awareness, generate new revenue streams, and provide a superior diagnostic platform to the market.

Intellectual property

The Company strives to protect its intellectual property in established and emerging markets around the world as warranted. MedMira's intellectual property portfolio for its Rapid Vertical Flow Technology and the methodology behind its rapid diagnostics includes the following:

<i>Patent #</i>	<i>Title</i>	<i>Jurisdiction</i>
9,164,087	Rapid Diagnostic Device, assay and multifunctional Buffer	United States
9,086,410	Downward or vertical flow diagnostic device and assay	United States
8,025,850	Rapid Diagnostic Device, Assay and Multifunctional Buffer	United States

8,287,817	Rapid Diagnostic Device, Assay and Multifunctional Buffer	United States
8,586,375	Rapid Diagnostic Device, Assay and Multifunctional Buffer	United States
7,531,362	Rapid Diagnostic Device, Assay and Multifunctional Buffer	United States
D706945	Diagnostic Device	United States
D706466	Diagnostic Device	United States
EP1417489	Rapid Diagnostic Device and Assay	Europe
ZL02819646.5	Rapid Diagnostic Device and Assay	China
2,493,616	Rapid Diagnostic Device, Assay and Multifunctional Buffer	Canada

The Company has other patents pending patents in the US as well as two design patents in force or pending in eight markets.

The Company's corporate and product brand names are protected by trademarks in the US and Canada.

The Company has recorded an impairment charge in previous fiscal years to write-down its intangible assets to a nominal value. There is no indication at the end of October 31, 2019 that this impairment has been reversed and thus the value of intangible assets on the balance sheet on October 31, 2019 is \$2 (July 31, 2019 - \$2).

Corporate update

MedMira continued to focus on the Reveal G4 and Miriad product lines throughout Q2 FY2020. Market building initiatives in the U.S., including segment profiling, database creation, lead generation, and identification of new sales opportunities, were the core activities during this quarter. The Company worked seamlessly with its sales channel network in the U.S. to promote and distribute the Reveal and Miriad products. MedMira also continues its work with international partners to explore global opportunities for the Company's rapid testing solutions.

During the first quarter, the Company's R&D team further strengthened the development pathways for new rapid testing solutions and RVF platform advancements to support existing and future product lines and collaboration opportunities with innovation and research partners.

MedMira's Finance and Operations teams managed ongoing fiscal constraints to preserve the Company's cash flow management through Q1 FY2020.

Financial results

Basis of preparation and significant accounting policies

The basis of financial statement preparation and the significant accounting policies of MedMira are described in Notes 2 and 3 of the Company's condensed interim consolidated financial statements for the three months ended October 31, 2019.

This quarterly information is unaudited but has been prepared on the same basis as any other annual consolidated financial statements. We discuss the factors that caused our results to vary over the past eight quarters throughout this MD&A. The main highlights are:

- The decrease in revenue for fiscal 2020 compared to fiscal 2019 is the direct result of the Company's decision to focus on higher profit margin markets.
- The decrease in operating expenses is a direct result of the decrease in sales coupled with the Company's continued efforts to reduce general and administrative costs.
- The increase in other expenses over the last several quarters is in direct relation to the increased amount of accounts payable and loans payable that the Company is carrying.

First quarter analysis

	For the three months ended		Better(worse)
	31-Oct-19	31-Oct-18	
	\$	\$	\$
Product			
Product sales	89,132	155,065	(65,933)
Product cost of sales	<u>(17,444)</u>	<u>(40,083)</u>	<u>22,639</u>

Product revenue and gross margin

The Company recorded revenue from product sales in the three months ended October 31, 2019 of \$89,132 as compared to \$155,065 for the same period last year. The 43% decrease in revenue compared to Q1 FY2019 was due to a change of the ordering pattern of the Company's main customers. The Company expects a substantial increase of the revenue figures in Q2 FY2020 in comparison to Q2 FY2019, which shall reflect this change.

Gross profit on product sales for the three months ended October 31, 2019 was \$71,688 compared to \$114,982 for the same period in 2019. The Company's gross profit decreased by 38% in comparison to Q1 FY2019. The Company's gross profit margin in Q1 FY2020 was 80% compared to a gross margin of 74% in the same quarter last financial year. This slight decrease was due to higher sales in international markets which generate a lower profit margin for the Company.

Operating expenses

Total operating expenses decreased by \$66,714 from \$421,711 for the three months ended October 31, 2018 to \$354,997 for the three months ended October 31, 2019.

- Research and development expenses for the three months ended October 31, 2019 were \$35,724 compared to a \$74,923 for the same period in fiscal 2019. The decrease in research and development expenses are in line with the management's expectations as R&D projects and products in the pipeline move through various stages of discovery, development, and commercialization.
- Sales and marketing expenses for the three months ended October 31, 2019 were \$14,653 compared to \$33,360 for the same period in fiscal 2019. The decrease of approximately 56% was due to the anticipated low sales season in Q1 FY2020.
- Other direct costs for the three months ended October 31, 2019 were \$98,865, compared to \$80,669 for the same period in fiscal 2019. This increase of approximately 23% was due to the additional costs for sales generated during

Q1 FY2020.

- General and administrative expenses \$205,755 for the three months ended October 31, 2019 compared to \$232,759 for the same period in fiscal 2018. The decrease of approximately 12% was due to the new policy involving leases which reduced the rent expense amount that would have been recorded in prior years.

Non-operating expenses

- Total non-operating expenses were \$185,364 in the three months ended October 31, 2019 compared to \$243,310 during the same period in fiscal year 2019. The decrease of 24% in financing expenses was due to an increase cost associated with the increase in accounts payables and loans payable.

Geographic information

The Company organizes and records the sales and distribution of its products based on major geographical territories around the world. The table below provides the three-month geographic breakdown of revenue.

	Product Revenue	
	October 31, 2019	October 31, 2018
	\$	\$
North America	69,378	126,700
Latin America and the Caribbean	6,515	3,150
Asia Pacific	-	13,572
Europe	13,239	11,643
Total revenue	89,132	155,065

Liquidity and capital resources

Cash and working capital

The Company had a bank indebtedness of \$5,933 on October 31, 2019 as compared to a cash of \$88,897 on July 31, 2019. The Company's net working capital position as at October 31, 2019 was a deficit of \$14.1 million compared to the July 31, 2019 working capital deficit of \$13.5 million. The Company has incurred operational losses and negative cash flows on a cumulative basis since inception. For the three months ended October 31, 2019, the Company incurred a net loss from operating activities of approximately \$0.3 million and negative cash flows from operations of \$0.2 million, compared to a net loss from operations of \$0.3 million and negative cash flows from operations of \$0.4 million for the same period in fiscal 2019. The following table is a list of commitments the Company has:

For the three months ended October 31, 2019

	Total	Less than 1 year	1 to 3 years	4 to 5 years	After 5 years
	\$	\$	\$	\$	\$
Debt	8,728,280	8,728,280	-	-	-
Bank indebtedness	5,933	5,933	-	-	-
Accounts payable and accrued liabilities	5,284,841	5,284,841	-	-	-
Lease liabilities	2,549,318	131,996	285,272	326,740	1,805,310
Royalty provision	82,000	82,000	-	-	-
Total debt	16,650,372	14,233,050	285,272	326,740	1,805,310

Operating activities

MedMira incurred negative cash flows from operations of approximately \$0.2 for the three months ended October 31, 2019, compared to negative cash flows of \$0.4 million for the same period in fiscal 2019.

Financing activities

Cash inflows from financing activities were \$0.1 for the three months ended October 31, 2019, compared to cash inflows of \$0.4 million for the same period in fiscal 2019.

Debt

As at October 31, 2019, the Company had loans payable with a carrying value of \$8.7 million compared to \$8.6 million at July 31, 2019. The increase in the carrying value of loans payable from July 31, 2019 to October 31, 2019 is due to an increase in short term loans. During the past 18 months, the Company was in negotiations with all of its debt holders to ensure realistic debt repayment plans, which shall enable the Company to use its working capital for its growth and ensure its future stability. As these negotiations are ongoing, the Company must record these as in default until final agreements have been signed. All the loans are currently in default due to non-payment of principal and interest and therefore show as a current liability on the balance sheet.

Further discussion on liquidity and capital resources can be found in this document in the Liquidity Risk section, Risk and Uncertainties section of this document and in Notes 2 and 8 of the Company's consolidated financial statements for the three months ended October 31, 2019.

Equity/Shares

The Company is authorized to issue an unlimited number of common shares without par value. During the three months ended October 31, 2019, the Company has issued no common shares. The number of issued and outstanding common shares on October 31, 2019 was 658,364,320. The Company is also authorized to issue an unlimited number of Series A preferred shares redeemable at \$0.01 per share after March 31, 2010, convertible into an equal number of common shares upon the Company meeting certain milestones. There were 5,000,000 Series A preferred shares issued and outstanding on October 31, 2019.

The Company had 1,300,000 outstanding stock options on October 31, 2019. The outstanding stock options have a weighted average exercise price of ranging between \$0.05 - \$0.10 per share and a weighted average remaining term of 0.13-0.58 years.

Off balance sheet arrangements

The Company was not party to any off balance sheet arrangements as of October 31, 2019.

Financial instruments – fair value

IFRS 9 sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement. The Company has adopted IFRS 9 on a modified retrospective basis and determined that there is no material impact to the Company's financial statements upon adoption. The details of the new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below. (i) Classification and measurement of financial assets and liabilities IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale. The adoption of IFRS 9 has not had a significant effect on the Company's accounting policies related to financial liabilities. The impact of IFRS 9 on the classification and measurement of financial assets is set out as follows. A financial asset is classified as the following measurement categories: amortized cost; fair value through

other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL"). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification. The Company's financial assets consist of cash and cash equivalents FVTPL, and accounts receivable classified at amortized cost. The Company's financial liabilities consist of trade accounts payable and accrued liabilities, salaries and benefits payable, interest payable, and long-term debt are classified at amortized cost while provision for royalty is classified as FVTPL which is unchanged from IAS 39. Financial instruments – risk factors MedMira has exposure to the following risks from its financial instruments: liquidity risk, credit risk, currency risk, and interest rate risk. Management monitors risk levels and reviews risk management activities as necessary.

Liquidity risk

The Company has incurred losses and negative cash flows from operations on a cumulative basis since inception. For the three months ended October 31, 2019, the Company realized a net loss of \$0.5 million (October 31, 2018 - \$0.6 million), consisting of a net loss from operations of \$0.3 million (October 31, 2018 - \$0.3 million), and other non-operating losses of \$0.2 million (October 31, 2018 - \$0.3 million). Negative cash flows from operations were \$0.2 million (October 31, 2018 - \$0.4 million). As at October 31, 2019, the Company had an accumulated deficit of \$91.2 million (July 31, 2019 - \$90.8 million) and a negative working capital position of \$14.1 million (July 31, 2019 - \$13.5 million). In addition, as at October 31, 2019, \$8.7 million of debt was in default. The Company currently has insufficient cash to fund its operations for the next 12 months. In addition to its ongoing working capital requirements, the Company must secure sufficient funding for its research and development programs for existing commitments, including its current portion of debt of approximately \$8.7 million. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

The Company's objectives in managing capital are to ensure it can meet its ongoing working capital requirements. The Company must secure sufficient capital to support its capital requirements for research and development programs, existing commitments, including its current portion of debt of approximately \$8.0 million, as well as growth opportunities.

Management dedicates significant time to pursuing investment alternatives that will fund the Company's operations and growth opportunities so it can continue as a going concern. As of October 31, 2018, potential investors were identified and negotiations were initiated to secure the necessary financing through the issuance of new equity. Debt arrangements were also ongoing with the Company's major shareholder and other debt holders. Subsequent to the close of the first quarter of FY2020, management continues investor negotiations with the identified parties, nevertheless, there is no assurance that this initiative will be successful.

Credit risk

The Company exposed to credit risk in relation to its trade accounts receivable. To mitigate such risk, the Company continuously monitors the financial condition of its customers and reviews the credit history or worthiness of each new customer. The Company mitigates this risk by requiring a 50% down payment on most orders at the time of purchase, and the remaining 50% prior to shipment. The Company establishes an allowance for doubtful accounts based on specific credit risk of its customers by examining such factors as the number of overdue days of the customers' balance outstanding as well as the customers' collection history. Since 79% of the Company's sales are with three large international companies there is no significant concentration of credit risk.

Currency risk

MedMira receives most of its revenues in foreign currencies and incurs expenses in U.S. and Canadian currencies. As a result, the Company is subject to uncertainty as foreign exchange rates fluctuate. The exchange fluctuations from year to

year have accounted for a significant portion of the Company's exchange gain and loss. Most sales are in USD, however, they are recorded at the exchange rate prevailing on or near the transaction date and collected in a timely manner.

The Company also experiences currency exposure resulting from balance sheet fluctuations of U.S and CHF denominated cash, U.S. accounts receivable, US and CHF denominated accounts payable and U.S. and CHF denominated promissory notes.

MedMira mitigates this currency risk by maintaining a balance of USD currency which is used to pay down U.S.-denominated liabilities and replenishes the balance through U.S.-denominated revenues.

Interest rate risk

The Company is not exposed to interest rate risk as it borrows funds at fixed rates.

Related party transactions

The following transactions occurred with related parties during the nine months ended October 31, 2019:

- Short term loans totalling \$2,000 were received from employees (July 31, 2019 - \$104,355)
- Short term loans totalling \$28,227 were repaid to employees (July 31, 2019 - \$94,557)
- A Short term loan totalling \$132,780 was received from MedMira Holding AG (2019 - \$0)

The following balances with related parties were outstanding at October 31, 2019:

- Accounts payable totalling \$836,592 was due to officers (July 31, 2019 - \$733,240).
- A loan term loan totalling \$201,491 was due to the Chief Financial Officer (July 31, 2019 - \$204,377).
- A royalty provision was owed to MedMira Holding AG of \$82,000 (July 31, 2019 - \$82,000).
- Short term loans totalling \$156,330 were owed to employees (July 31, 2019 - \$182,544)
- Short term loans totalling \$1,466,740 are owed to Ritec AG (July 31, 2019 - \$1,459,810)
- Short term loans totalling \$235,933 were owed to one officers (July 31, 2019 - \$296,387)
- Short term loans totalling \$466,690 was owed to MedMira Holding AG (July 31, 2019 - \$0)

Adoption of new accounting policies

The Company adopted IFRS 16 Leases on August 1, 2019, which introduces a new approach to lease accounting. The Company adopted the standard using the modified retrospective approach, which does not require restatement of prior period financial information, as it recognizes the cumulative impact on the opening balance sheet and applies the standard prospectively. Accordingly, the comparative information in these unaudited interim consolidated financial statements is not restated. At the inception of a contract, the Company assesses whether the contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. This policy is applied to contracts entered into, or modified, on or after August 1, 2019. Effective August 1, 2019, the IFRS 16 transition date, the Company elected to use the following practical expedients under the modified retrospective transition approach:

Leases with lease terms of less than twelve months (short-term leases) and leases of low-value assets (less than \$5,000 CAD dollars) (low-value leases) that have been identified at transition, were not recognized in the consolidated balance sheet;

- Right-of-use assets on transition were measured at the amount equal to the lease liabilities at transition, adjusted by the amount of any prepaid or accrued lease payments;
- For certain leases having associated initial direct costs, the Company, at initial measurement on transition, excluded these direct costs from the measurement of the right-of-use assets; and

- Any provision for onerous lease contracts previously recognized at the date of adoption of IFRS 16, has been applied to the associated right-of-use asset recognized upon transition.

Where the Company is a lessee, a right-of-use asset representing the right to use the underlying asset with a corresponding lease liability is recognized when the leased asset becomes available for use by the Company. The right-of-use asset is recognized at cost and is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset and the lease term on a straight-line basis. The cost of the right-of-use asset is based on the following:

- the amount of initial recognition of related lease liability;
- adjusted by any lease payments made on or before inception of the lease;
- increased by any initial direct costs incurred; and – decreased by lease incentives received and any costs to dismantle the leased asset.

The lease term includes consideration of an option to extend or to terminate if the Company is reasonably certain to exercise that option. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

Lease liabilities are initially recognized at the present value of the lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. In the situation where the implicit interest rate in the lease is not readily determined, the Company uses judgment to estimate the incremental borrowing rate for discounting the lease payments. The Company's incremental borrowing rate generally reflects the interest rate that the Company would have to pay to borrow a similar amount at a similar term and with a similar security. The Company estimates the lease term by considering the facts and circumstances that create an economic incentive to exercise an extension or termination option. Certain qualitative and quantitative assumptions are used when evaluating these incentives.

Subsequent to recognition, lease liabilities are measured at amortized cost using the effective interest rate method. Lease liabilities are re-measured when there is a change in future lease payments arising mainly from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, renewal or termination option. The payments related to short-term leases and low-value leases are recognized and included within selling, general and administrative costs over the lease term in the unaudited interim consolidated statements of income.

The Company's unaudited interim consolidated financial statements were not impacted by the adoption of IFRS 16 Leases in relation to lessor accounting. Lessors will continue with the dual classification model for recognized leases with the resultant accounting remaining unchanged from IAS 17 Leases. On August 1, 2019 upon adoption of IFRS 16, the Company recognized \$2.57 million of right-of-use assets and \$2.57 million of lease liabilities that were previously accounted for as operating leases. The Company applied its estimated weighted average incremental borrowing rate at August 1, 2019 of 5.0% to determine the amount of lease liabilities

Compensation summary

A) Officers for Q1 FY2020

Name and Principal Position	Paid Compensation (\$)	Accrued Compensation Current year (\$)	Share- and Option-based Awards* (\$)	All other compensation (\$)	Total Compensation current year (\$)	Paid Compensation related to previous fiscal years (\$)	Accrued Compensation related to previous fiscal years (\$)
Hermes Chan <i>CEO</i>	-	50,615	-	-	50,615	-	98,003
Markus Meile <i>CFO</i>	-	38,669	-	-	38,669	-	396,454

¹ All other compensation includes pension fund contributions and/or bonuses paid out.

*The Company makes certain estimates and assumptions when calculating the fair value of option-based awards. The Company uses an option-pricing model, which includes significant assumptions including estimates of the expected volatility, expected life, expected dividend rate and expected risk-free rate of return. Changes in these assumptions may result in a material change to the amounts recorded for the issuance of stock options.

B) Directors for Q1 FY2020

Internal control systems and disclosure controls

To ensure the integrity and objectivity of the data, management maintains a system of internal controls comprising of written policies, procedures and a program of internal reviews which provides reasonable assurance that transactions are recorded and executed in accordance with its authorization that assets are properly safeguarded and that reliable financial records are maintained.

Management is currently updating existing standardized processes to improve internal controls and reduce compliance costs. The updated controls will help improve timeliness and accuracy of financial records as well as continue to ensure that the Company's assets are properly safeguarded.

Disclosure controls and procedures within MedMira have been designed to provide reasonable assurance that all relevant information is identified to the Disclosure Committee to ensure appropriate and timely decisions are made regarding public disclosure.

Management, under the supervision of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's internal control over financial reporting and based on this evaluation, has concluded that internal control over financial reporting was effective as at October 31, 2019.

Due to inherent limitations, internal control over financial reporting and disclosure controls can provide only reasonable assurances and may not prevent or detect misstatements. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Audit Committee of the Board of Directors of MedMira reviewed this MD&A, and the condensed interim consolidated financial statements of MedMira for October 31, 2019 and MedMira's Board of Directors approved these documents prior to release.

Risk and uncertainties

For the three month period ended October 31, 2019, the Company has not identified any significant changes to the risks and uncertainties it is exposed to which were previously described in the previous issued MD&A's.
